APPLIED
DATA SCIENCE I

Applied Data Science I: Scientific Computing & Python (with honors)

Issued by WorldQuant University.

Earners of this badge have completed a comprehensive introduction to scientific computing, Python, and related tools used by data scientists. They can use Python to read, clean, process, and analyze real-world data by following good programming practices such as using functions, choosing the appropriate data structures, and writing readable, maintainable code. To determine the statistical significance of the results of their analysis, they can apply statistical analysis and hypothesis testing.

To review Certification requirements and find out about Oracle University's recommended training to prepare for Certification Exams visit <http://www.oracle.com/certification/exams>
To view your Exam and Certification history, and verify your Certification to third parties, visit <http://certview.oracle.com>

Oracle Certification Program Information

- Visit certification.oracle.com and select your certification path to ensure you are aware of all certification requirements.
- Note that completion of the required training and approval of the course submission form are also required in paths that require training.
- Check certview.oracle.com to confirm that all completed components are in your profile.
- If exams that you have taken do not show up, you may have taken them under a different Oracle Testing ID.
- Contact www.peeronvue.com/oracle/contact to merge IDs (provide all IDs under which you have taken exams or submitted forms and confirm which ID should be the surviving ID).
- To review Certification requirements and find out about Oracle University's recommended training to prepare for Certification Exams visit <http://www.oracle.com/certification/exams>

If this is the final exam in your certification path, you are required to complete the following steps.

- Upgrading Oracle Database Software
- Performance Database Backups
- Oracle Database Management Tools
- Oracle Database Instance
- Moving Data
- Managing Undo Data
- Managing Database Storage Structures
- Implementing Oracle Database Auditing
- Creating an Oracle Database Using DBCA
- Configuring the Oracle Network Environment
- Backup and Recovery Configuration
- Automating Tasks by Using Oracle Scheduler

Feedback on Your performance is printed below. The report lists the objectives for which you answered a question incorrectly.
